Riders are optional may be available at an additional cost and may not be available in all states.

1 The Lifetime Income Benefit Rider provides a benefit for the life of the insured if certain conditions are met, including but not limited to the insured's attained age being between 60 and 85 and that the policy has been in force for at least 15 years. Insufficient policy values, outstanding policy loans and other considerations may also restrict exercising the rider. Receipt of income benefits will reduce the policy's death benefit and cash value and may terminate other riders or reduce their benefits. There is a charge for the rider during the income payment period.

2 Guarantees are dependent on the claims paying ability of the issuing company.

3 Substantial limitations apply to exercising the Overloan Protection Rider, including the policy be in force for at least 15 years and the insured having attained the age of 75. Exercising the rider results in a paid-up policy. There is no cost for this optional rider, however there is a fee charged when the rider is exercised.

4 Receipt of accelerated benefits will reduce the policy's cash value and death, may be a taxable event and may affect a family's eligibility for public assistance programs.
