Individual Single Premium Deferred Fixed Interest Annuity with Long-Term Care Insurance Riders

Description of Contract: Annuity Care II is a single premium deferred fixed interest annuity with a Long-Term Care (LTC) Insurance Rider. This combination provides long-term asset growth and LTC benefits should you need them. Also included is a Continuation of Benefits (COB) for LTC Rider. This rider allows for continued benefit payment of covered expenses for qualified LTC services.

Other Things You Should Know About This Contract and Riders:

Contract Premium: The single amount you pay for this contract.

Guaranteed Interest Rate: Accumulated Value (AV): For the first contract year, the guaranteed and projected (non-guaranteed) interest rates are both 1.40%. After the first contract year, the guaranteed interest rate on the AV is 1.00%. LTC Accumulated Value (LTCAV): For the first five contract years, the guaranteed interest rate and the projected (non-guaranteed) interest rate are both 1.90%. After the fifth contract year, the guaranteed interest rate on the LTCAV is 1.00%.

Projected (Non-Guaranteed) Interest Rate: Accumulated Value (AV): The projected (non-guaranteed) interest rate in all years is 1.40%. The projected (non-guaranteed) interest rate on the LTC Accumulated Value (LTCAV) is 1.90%.

Tax Information: The values illustrated do not reflect withdrawals. All AV withdrawals are subject to federal income tax, to the extent of the gain in the contract. Withdrawals prior to the owner reaching age 59 1/2 will generally be subject to an additional 10 percent federal income tax penalty. LTCAV withdrawals are considered federally tax-qualified and income tax-free as a reduction in basis. This illustration should not be relied on for tax advice. Any tax issues regarding this illustration or the contract should be reviewed with the owner's tax advisors.

Cash Surrender Value: The AV, minus any surrender charges, is available to the owner upon surrender of the contract. Surrender charges are waived on partial surrenders up to 10% of your AV (as of the beginning of the contract year) after the first contract year. Full surrenders within 12 months of a partial surrender will result in a recapture of the waived surrender charges. Any partial surrender from the AV proportionally reduces the LTCAV. Surrender charges will be waived on qualifying LTC withdrawals from the LTCAV. Upon full surrender, these charges will be deducted in the first nine years as follows:

Contract Year	1	2	3	4	5	6	7	8	9	10+
Surrender Charge	9%	8%	7%	6%	5%	4%	3%	2%	1%	0%

Contract Premium: \$200,000.00

Annuity Type: Non-Qualified

It is assumed the single premium will be paid no later than upon issuance of the contract.

Presented by: Larry Faretta

Continuation of Benefits Rider: There is a monthly charge deducted from the AV to pay for the Continuation of Benefits (COB) Rider. The LTCAV is reduced on a proportional basis for the monthly charges to the AV. This charge will not exceed the interest credited to the LTCAV. Based on the issue age(s) and COB option selected for this illustration, the monthly cost as a percentage of the LTCAV is 0.102%. The percentage is guaranteed to never change. At issue, the COB monthly benefit limit will equal the LTCAV divided by 24 months.

LTC Accumulated Value: The amount available for payment of covered expenses for qualifying long-term care services incurred under the contract with the LTC Insurance Rider.

COB Balance: The amount available under the Continuation of Benefits Rider, which is available only when long-term care payments have reduced the LTCAV to zero (0).

Total LTC Balance: The sum of the LTCAV and COB Balance.

LTC Monthly Benefit: The amount payment will be based upon is the amount of actual expenses incurred for qualifying long-term care covered expenses up to the LTC Monthly Benefit.

LTC Withdrawals: The LTCAV can be used by the owner for benefit payments for covered expenses of qualified LTC services incurred by a covered person after a 90-day elimination period is met. An outline of coverage will be provided to you with the eligibility requirements, exclusions and limitations. The LTCAV is no longer available if you elect either a full surrender or annuitization of the contract. The withdrawal period for the LTCAV is 24 months. When LTC withdrawals are paid from the LTCAV, the AV is reduced on a proportional basis.

Please refer to the Annuity Disclosure and the Annuity Buyer's Guide, available from your insurance producer or the Company at your request.

Annuity Payment Options:

This single premium annuity contract is a deferred annuity contract. This annuity contract guarantees an annuity income stream of payments upon the Maturity Date. Since the payout options begin at a future date, you don't pay taxes on the interest the annuity earns until the contract value is paid to you. The contract provides a choice of settlement options, shown below, so you can choose an income stream that is appropriate for your needs. The automatic annuity option is Life Annuity with Guaranteed Period of 10 years.

The annuity payment options available are:

Income for a Fixed Period

Life Annuity

Life Annuity with a Guaranteed Period

Joint and Survivor Life Annuity

Joint and Survivor Life Annuity with a Guaranteed Period

This annuity payment estimation is based on annuitization occurring in contract year 10:

	Guaranteed Monthly Payment	Non-Guaranteed Monthly Payment
Annuitized Value	\$195,429	\$202,721
Income Rate per \$1,000	\$5.68	\$5.68
Life Annuity with 120 Guaranteed Payments	\$1,110.04	\$1,151.46

The amount of the monthly payment will be based on the cash surrender value. The LTCAV is no longer available if either a full contract surrender or annuitization is elected.

Annuity Care® II - LTC Overview

Year 10 LTC Values

Year 10 LTC Monthly Benefit Limit

The values shown are based on the contract premium above, assuming no withdrawals. More information can be found in the preceding pages of this illustration. LTC monthly benefits are withdrawn first from the LTCAV. The COB Balance is available only when LTC payments have reduced the LTCAV to zero.
